

A Prospector's Experience.

J. E. Edalson, a poor prospector, recently had a most trying experience on the desert west of Tucson. He had been prospecting down in Meyers District for some time, when he concluded to come to Tucson. Knowing but little of the route and having a pocket map and a small pocket compass, he concluded to strike a bee line for Tucson. He knew that there was no water on the route he had selected, but he believed that by laying over in the day time and traveling at night that he could make it through. Having made every preparation, which consisted of two canteens of water, about three pounds of crackers and as much dried meat as he could get, he started out on the evening of the 15th inst. for Tucson. He estimated the distance from where he started to Tucson to be about 100 miles on an air line. The first night he got along very well, but when morning came he found himself in an open plain with not a tree in sight or any place where he could gain a shelter from the sun. He traveled on until nine or ten o'clock without finding any shelter from the burning sun, when he concluded to lay by for a short time, and then go on until some more fitting place offered a shelter. After taking some crackers and dried meat and drinking pretty freely of water from his canteen, he jogged along. He got along very well, but growing thirsty he was forced to drink from the canteen to such an extent that he was in fear of running short of water. However, he got along very well until about night, when he reached a grove of pine and oak trees, and being so tired he lay down to rest and soon went to sleep. When he awoke the sun was shining in his face, having slept the night through when he had intended to stop for a few hours and then proceed on his journey. This so frightened him that he at once got up and proceeded on his way. He now had but about a canteen of water, and was afraid to partake of any more food for fear of increasing his thirst. So he jogged along, passing over two or three ranges of low mountains, when for the first time since he started it seemed that he had lost his direction; he proceeded to examine his compass, but it was gone. In his haste he had left it where he had stopped over night. The sun going down and not having a very thorough knowledge of the heavens he lost his course, and wandered around in the hills until he became so exhausted that he could go no further, so he stopped to rest. He could neither sleep nor keep awake, as he expressed it. He had used his water very sparingly, only tasting or wetting his lips occasionally, but it was nearly all gone. He sucked a little at his dried beef, but it seemed to increase his thirst and he quit it. Morning came and he was again started forward, but having lost completely his way, he renounced his purpose of making Tucson and struck out in the direction of Babquivar Peak, which he could see in the distance. He traveled on all day and a part of the following night without water, and finally gave up in despair. His tongue had become swollen and his eyes and head pained him, he became unconscious and remembered nothing more until the afternoon of the following day, when the sound of voices and the sprinkling of water on his face awoke him. Some Papago Indians had found him, and knowing that he was dying of thirst, had taken care of him and brought water and placed him in a shady place. He soon recovered under the kind treatment of his new friends for whom he has nothing but good words. He arrived in Tucson yesterday, and says that hereafter he "will not have the main traveled road under any circumstances."

The Goldtree Mine and Smelting Works.
Mr. Campbell has kindly furnished the following additional information as to the capacity, etc., of the new smelter for the Goldtree mine. The furnace has a capacity for refining 4,500 pounds of ore per day, which, on an average, will yield about one ton of bullion from the Goldtree ore. It is built after the style of the Patterson reverberatory furnace. The two bars of bullion of which we made mention in THE CITIZEN of yesterday were from 400 pounds of ore. One bar was left at the smelter, and of course the remaining matte was thrown off; hence the bullion produced is not in proportion to what would be from a larger amount. Mr. Campbell is sanguine that the property now stands on a paying basis. He will return to the mines the coming week and start up the works, and let new contracts for the further development of the mines. The group of mines embraced in the Goldtree Company, consisting of the Hard Case, Campbell, Goldtree, Cora, Laura, and Smuggler, are all promising mines. The expense of running the new smelter will be light. Two men can raise enough ore to keep the smelter going. The bullion which was produced from the Goldtree was assayed by Salazar & Rahn, giving 117.5 ounces in silver, valued at \$151.95, and estimating the lead at \$100 per ton gives a total value of \$251.95 per ton.

The Road Question.
In discussing the road question it is really astonishing that so many of our citizens who should be well posted as to the lay of the country differ so widely as to the best routes over which roads should be built. Sectional interests sometimes warp the opinions of those professing to know the best routes but in the discussion now going on it would seem that no such interest exists and that each one expresses his honest opinion. We have no doubt but that the men appointed for the purpose of determining the best routes will do their duty, and that in the end all will be for the best. The judgment of the best men is often at fault when the surveyor runs his lines and determines the grades and distances, so that if those who have volunteered their opinions have erred they did it innocently, believing that what they advocated was for the best interest of the country. There is, however, one feature of the road question of Pima county upon which all agree, it is that many important improvements in our road system should be made as soon as possible.

County Offices.
There seems to be a number of men in Pima county who would not object to being elected to the offices of Sheriff, Recorder, and Treasurer. Where there are so many good men who will condescend to accept office, we can hardly fail to select competent men for the places. Pima county now represents more than half the wealth and perhaps more than half the population of the Territory; hence it is very important that good men should be selected to fill the various county offices. It will not be long before we shall have a full list of candidates in the field.

Church Service.
Methodist Episcopal service will be held in the new church tomorrow evening, beginning at 8 o'clock. Rev. Wm. G. Miles, pastor. A sermon will be preached on the Christian grace, Charity, after which a collection will be taken up, the proceeds of which will be given to the funds of St. Mary's Hospital, under the auspices of the Sisters of Charity of Tucson. It is to be hoped that a large concourse of our citizens will attend, as well to hear the interesting, learned, and Christian discourse as to contribute so worthily an object of charity.

Dr. H. B. LATROP has been appointed by Messrs. Peck & Kimball receiver of specimens of Arizona minerals to send to the various exhibitions shortly to take place in Los Angeles and the East. Each specimen should be distinctly labeled with the name of the mine, owner's name, mining district, and assay. Certificates of the assay must in all cases be shown to the receiver.

THERE are some fine specimens of ore on exhibition at Pierson & Co.'s saloon on Congress street. Among the lot we noticed a very fine specimen of gold rock from the Imperial mine in Old Hat District. The gold seems to be in clusters from the size of a pinhead up to a pennyweight. A few tons of such rock would satisfy our desires for some time to come.

Just received at Warren's a carload of California potatoes, Irish beauties, sweet sixteen, large, smooth, plump and rosy. This is the finest lot of potatoes ever brought to Tucson, and the demand for them is so great that the railroad Company are about to put down a double track in order to keep Warren supplied.

Of all thieves a chicken thief is perhaps the most despicable. A Chinaman in the north part of town lost quite a number of his fowls last night and he says "Chinaman ketch 'em may be, and may be Mexican." But of one thing John is sure—somebody "ketch 'em."

THE CITIZEN office is now turning out some of the finest specimens of job work ever turned out in the Territory. People know where the best work is done, and make their orders accordingly.

SETH THOMAS clocks at Nilson's jewelry store, next door Western Union Telegraph office.

The Palace Hotel.

The Palace Hotel has justly gained a popularity hitherto almost unknown in Arizona Hotels. But a short time since some fifty new rooms were added, which were built with a view of making them as airy and cool as possible, and one has but to pass down the wide halls to see how well they have succeeded. These additional rooms were furnished throughout with new furniture, and the old rooms were thoroughly renovated and refurnished. It is now one of the best arranged as well as one of the best kept hotels on the coast. Since Rydell & Leber took charge of the Palace nothing has been spared by the management to make their guests comfortable. The cuisine is under the direction of a first-class cook, while Col. Young, so well and so farably known here and in California, is the popular steward. The Palace bar is not excelled by any other in the Territory for choice brands of cigars and pure liquors. The Sunday dinners at the Palace are becoming very popular; the tables are furnished with everything the markets afford, including ice cream and many other delicacies not usually furnished in an Arizona bill of fare. It is no wonder that the Palace has become so popular with all classes.

Treasure Movement for the Week Ended July 23.

July 19.—Tombstone Company, through the banking house of Safford, Hudson & Co., bars Nos. 304 and 305, valued at \$5,319.85.
July 20.—Bars No. 306 and 307, valued at \$3,319.85.
July 21.—Bars No. 308 and 309, valued at \$5,229.13.
July 22.—Bars No. 310 and 311, valued at \$4,509.62.
Total for the week \$17,387.72.

July 23.—Eighteen bars from Tip Top, valued at \$13,000.00.

From the Stowell Jackson and Mack Morris mills, \$17,000.00.

Contribution (estimated) \$12,000.00.

Total for the week, \$35,247.72.

To this may be added 100,000 pounds of Silver King concentration, which is estimated to be worth over three dollars a pound, which would make the grand total for the week, \$48,387.72.

Personal.

A. B. Packard and B. J. Taylor, prominent capitalists of Bradford, Pa., are in town.

C. Chapman, San Francisco; O. R. Smyth, W. S. Murphy, Oakland, and W. Clark, Jefferson City, Mo., are registered at the Palace.

Special Agent Mahoney, from San Francisco, arrived in town today. He comes here on official business connected with the Postoffice Department.

R. J. Butler, C. W. Burgess, G. M. Parnis, S. Morris; R. F. Pixley, and Charles Washburn, San Francisco; H. Richards and C. L. Armon, Athens, La.; and Santa Fe Railroad; John Williams and Joseph Atkins, Puente de Agua, are registered at the Cosmopolitan.

The Santa Rita.

Parties who have recently visited the new discoveries on the Eastern slope of the Santa Rita, reports some of the prospects as looking remarkably well. These mines were first discovered two years ago by Jack Mansfield and others, but until lately no work had been done upon them. There are one 30 or 40 men in and about the new camp.

Dr. Tanner refused \$100 a day to go into one of the leading theatres in New York for the remaining period of his last. But he told the manager if he would send to Pierce, the grocer at Tucson, for a lot of his choice canned goods and fine fruit, for his use when the last day was over, he would do it.

Getting on the Police Force.

"Well, my man," said a philanthropist to a hardened looking chap confined in the New Orleans parish prison, "what are you in for?"

"In for thirty days, I reckon," said the prisoner sullenly.

"No, not that. What offence did you commit?"

"Did I commit anything? The judge committed me."

"Well, you must have been accused of some crime?"

"Oh, yes. I was accused of trying to get on the police."

"Someone trying to get on the police is no crime. I myself have recommended many worthy men for positions on the police force, and have helped to get them on."

"Is that a fact? That is all I was sent here for. You see there were two of us, and we both tried to get on the same policeman. We had him down, but some of the other peeler thought we were crowding the man too hard, and—"

"That will do sir," said the philanthropist. "I understand your case perfectly. Here are a few tracts for the improvement of your mind."

Secretary Schurz.

Secretary Schurz will extend his western trip to California, where he will arrive some time during the present month. Secretary Schurz has already visited many Indian agencies in person, and his business in California is in the interest of the Indian service, which he has purified greatly during his administration of its affairs. He is perhaps the best man who has ever been at the head of that department.

Insurance Men Sent Up.

LONDON, July 22.—At Manchester several officers and Directors of the Northern Company of England Insurance Company were found guilty of fraud and conspiracy in falsifying the company's accounts. The general manager was sentenced to eighteen months hard labor. The Chairman of the Board of Directors got twelve months hard labor, and four others to six months imprisonment.

JUDGE McCARTY, of this county and for some time engaged in prospecting and mining, died at St. Mary's hospital on Sunday last.

New Stage Lines.

The Tucson and Patagonia Stage Company has completed arrangements whereby a new stage line from Benson to Tombstone to be run daily, on and after Monday next, fare from Benson to Tombstone, \$3.50; fare from Tombstone to Benson, \$2.00. Also a new line from Harshaw to Tombstone to make three trips a week, leaving Harshaw Monday, Wednesday and Friday and arriving Tuesday, Thursday and Saturday; fare, \$6 each way. The stage business is getting lively and from our mining camps there are now three dailies from Benson to Tombstone; two dailies from Pantano to Harshaw, and two tri-weekly lines from Harshaw to Tombstone.

Our streets are filled with Indians from the lower country. They seem to have a great deal of business to look after in Tucson since the completion of the railroad. They have free rides over the railroad to and from their villages in Maricopa and Yuma counties, and scarcely a freight train passes up or down the line that does not have Indians on board. It is not long since the cars ran over one down about Maricopa who was severely if not fatally injured. It is a wonder more of them are not hurt, as they toll around on the cars in an astonishingly careless way.

We call the attention of the public to the Selby Smelting Company, of San Francisco, which appears in another column of THE CITIZEN. This company has for a long time operated successfully on gold, silver, and lead ores and sulphurets, and is noted for its fair dealing. They also manufacture lead pipe, sheet lead, shot, etc. The highest price paid for the above named ores. Parties who design shipping ore will do well to try the Selby works.

It looks lively up about the railroad round house and machine shops. A large force of men are employed out there, and their incessant hammering reminds one of old times. The roofing of the building is of corrugated iron, the roof timbers being supported by substantial truss work. Several smaller buildings for the men employed on the road have been added since our last visit, and that locality now begins to look like a new town.

It now looks as though the Mexican Government was going to put a quietus on Victorio in Mexico. From a dispatch in today's CITIZEN it appears that a large force is to take the field and will not stop on reaching the line, but pursue the Indians on American soil if it becomes necessary. Now if our own troops will only be on hand when the game is driven out they may put an end to the old man's career.

The preliminary steps are about to be taken to secure a patent for the town of Harshaw. The patent will be obtained through the Probate Judge of Pima county in the interest of the occupants of the town, which is believed to be the surest way of securing the rights of all parties concerned.

The store at Empire City is now in full blast, and affords ample supplies for the miners and ranchmen in that locality. A postoffice will doubtless soon be established at Empire City, it being on the stage line from Pantano to Patagonia.

THERE is nothing new under the sun, but when the sun goes down, and our wicked earth assumes the top role, then are a great many things done which cannot stand the light of day.

DEPUTY SHERIFF BLANKENSHIP, of Phoenix, brought up G. H. Willett, charged with grand larceny. Willett was turned over to Sheriff Shibley for safe keeping.

It seems that for the present the railroad company has abandoned sinking for water at Papago station, which is about twelve miles east of town.

SAY "good morning" or "good evening" to the hostess on leaving the room. "So long, old girl," has gone out of fashion in the best society.

ONE hundred thousand pounds of best California flour at \$4.25 at Wm. Zeckendorf's.

FRESH Pine Apple Sherbets and Ice Cream, at Charles Schurz's.

This fact is now becoming very broadly outlined, that what Denver is to Colorado, Los Angeles is to Arizona. The above is from the Herald, and is to say the least, decidedly checky. Now it has not been more than sixty days since the Herald published a communication from Tucson, by a Los Angeles man stating "that there was twice the amount of business done in Tucson than there was in Los Angeles." Tucson occupies the proud position of being the distributing point for Arizona, and will never consent to form it out to a defunct town in a neighboring State.

GO TO THE

Wholesale and Retail Grocery Store of C. Sellmann & Co., for choice Roquefort, Swiss, Holland, Limburger, Sap, Sago, California, Pine Apple and Parmesan Cheese. Pates de foie gras, Truffles, Mortadellas, Imported Sausage, Sardines, Eastern Biscuits, Stuffed Olives, Sardelles, Anchovies, Holland Herrings, Yorkshire Sausage Pie, Goch Claret, California Claret by the Gallon.

Fresh Ranch Butter, Smoked Turkeys, Oregon Dried Beef, Tahiti Lard.

New California barley, flour, corn and Sonora beans, at Warren's.

Well regulated clocks cheap at Berger's.

Gold, silver and nickel watches at Nilson's jewelry store, next door to Western Union Telegraph office.

SEWING MACHINES to rent at Berger's.

FOR RENT—Three rooms and kitchen, on corner of McCormick street and Stone avenue. W. O. SELLMAN.

PIANO and BRASS INSTRUMENTS at Berger's.

At I. Norton's Loan and Brokers' Office the highest premium will be paid for Currency or U. S. Gold, Congress street, opposite Safford, Hudson & Co., Bankers.

Good goods at low prices at Pierson's.

Smoke the Garcia fine Havana Cigar, at Earl & Co's.

Pipes and Tobacco at Pierson's.

Smoke the Margarita Especial (one hit) Havana cigar, at Earl's.

The largest and best assortment of Stationery and Blank Books can be had at the Pioneer News Depot.

A GENTLEMAN well acquainted in Tucson, who speaks and writes English, French, Spanish and German, desires a situation as clerk in a store. Address by letter E. O. postoffice, or Sampson's Cigar Store.

Go to the Union Saloon, (Louis Donsing & Co., Proprietors.) for the coolest and finest sharp drawn beer, next door to L. Meyers & Co's store. Three hundred pounds of ice consumed daily to keep the beer in prime condition.

The Futa Morgana (one-hit) Havana cigar, at Earl's is the best in town.

The noblest stock of low cut ties, round or square toe, fine goods, just received twenty cases, at everybody's prices, corner Main and Pennington Streets.

Trunks, old pioneers, Foster & Hand, use a ton of ice a day to keep their beer cool, at their saloon on the corner of Meyers and Main streets—and that's the frozen truth.

Wants a Situation.

A German girl wants a situation to do general house-work. Address E. L. Tucson.

ONE hundred thousand pounds of California Extra Superfine flour at \$4 at Wm. Zeckendorf's.

SADDLES, bridles, whips, spurs, blankets, robes—all the necessities for travelers, prospectors' and teamsters' outfits—are made a specialty at Clarke & Patton's saddlery store.

SEEK the crowds daily at the New Boot and Shoe House, corner of Main and Pennington Streets. Fine California goods sold at everybody's prices.

SEWING MACHINES at Pierson's.

P. F. NILSON Jeweler, has removed to Congress Street, next door to Western Union Telegraph office.

ATTENTION SMOKERS! A fine lot of imported Havana cigars at the Pioneer News Depot.

Just received at Ghanetto's, on Congress street, a choice lot of fresh ripe fruit.

TRAMPS, Trampette notice. New stock of Boots & Shoes received weekly, at everybody's prices, corner Main and Pennington Streets.

You can save money by buying your clothing at J. Ferrin, merchant tailor, Meyers street, opposite Palace Hotel.

\$100 saved is \$100 made. Cheap your Gold or Currency Note. Mexican Silver—it will reach just as fast—at Norton's Loan and Brokers' office, Congress street, opposite Safford, Hudson & Co's.

In a few days there will be the genuine Black Buck Beer, manufactured by Levin, on draught in all the principal saloons in the city, and also in bottles.

A FULL line of silver plated, table ware, just received at Nilson's jewelry store, next door to Western Union Telegraph office.

WANTED—\$20,000 in U. S. Gold or Currency for which the highest premium will be paid at Norton's Loan and Brokers' Office, Congress street, opposite Safford, Hudson & Co's.

The Sherman & Hyde instruments are commanding quite a popular market in Tucson. The Sisters have one of their fine pianos and Mr. Loda another. The elegant organ sent to Mr. J. M. Berger, their local agent, has been purchased by Dr. Hardy, and Mr. Berger has just received another upright piano of elegant tone and finish, which is now for sale at his store on Congress street.

A Card.

To all who are suffering from the early signs and indications of youth, increase weakness, early decay, loss of manhood, etc., I will send a receipt that will cure you, FREE OF CHARGE. This good remedy was discovered by a missionary to South America. Send a self addressed envelope to the Rev. Joseph T. Leman, Station D, New York City.

A FINE THING for the Teeth. Fragrant SOZODONT is a composition of the purest and choicest ingredients of the Oriental vegetable kingdom. Every ingredient is well known to have a beneficial effect on the teeth and gums. Its embalmic and antiseptic property and aromatic fragrance makes it a toilet luxury. SOZODONT removes all disagreeable odors from the breath caused by catarrh, bad teeth, etc. It is entirely free from the injurious and acid properties of tooth pastes and powders which destroy the enamel. One bottle will last six months.

The site selected for the Egyptian obelisk, which has arrived at New York, is on a natural knoll of ground in front of the Metropolitan Museum of Art, Central Park.

Garfield Returns Thanks.

NEW YORK, July 22.—Chas. Wat. Carr, President of the New York Republican Central Campaign Club, received the following letter:

MEXICO, Ohio, July 14.—Dear Sir: Allow me through you to thank the members of your club for the complimentary paid me in the resolutions adopted at your meeting. Of course you know that New York settles the case if we can carry it, and I am particularly glad to see the activity of our people on this important State.

Yours truly, A. J. GARFIELD.

Dr. Tanner.

It is very natural for people to look at the course pursued by Dr. Tanner, in his undertaking to live 40 days without food, as foolish. Yet when we come to examine into the facts, it may not be so foolish after all. Dr. Tanner is an old hand at the fasting business. He is a well-known character in Minnesota, where he has repeatedly tested his capacity for fasting. He has had an unusual tendency to accumulate fat when giving away to his appetite, which led him to limit his diet, by which means he reduced his flesh from 200 to 160 pounds. It has long been a hobby of Tanner's to abstain from food, which he believes the surest way for many bodily ailments. He has repeatedly sustained from food a number of days at a time, and at one time he is reported to have fasted 42 days. If Dr. Tanner succeeds in accomplishing his great undertaking, he will have done more for science and the good of mankind than is at first apparent. He does not claim more endurance than other men, but he says he owes it to his will power, his determination to perform a certain thing. If a sick man makes up his mind that he is going to die, he generally does die; but if, on the contrary, he is determined to live, it goes a long way towards putting him on his feet again. There are numerous instances of sick persons whom the doctors have given up to die, stating that they could live but a few days or a few hours, when such person had an object in living a little longer in order to see a dear friend or arrange some important business matter before departing this life, and in very many cases they have done what they set out to do, and have lived many days or even months after the doctors said they must die. If a starving man makes up his mind that he cannot live longer than from seven to nine days without food, he is set to die in that time, but if Dr. Tanner demonstrates the fact that a man may live 40 days without food, then it may be many others who brace up for the fight against giving up may unbarrier the old seven and nine day theory. We shall await the result of Dr. Tanner's fasting with interest.

A Step Forward.
There is no longer any croakers left in Tucson; they have either shut up or left for parts unknown. Parties have a year ago began to collect their effects around them, and convert their property into cash with a view of being on the first tidal wave rushing toward Benson, have very quietly invested in real estate in Tucson, which they now readily admit is the coming town. All our mining camps are prospering beyond anything looked for. Old Hat is just coming to the front, the Old Head and Amole Districts are attracting a good deal of attention, and more or less money is being invested in them. Out at the Esperanza they have done a large amount of work in a quiet way, and the prospects in Oro Blanco, Arivaca, and Babquivar never looked better. Even out in the Santa Rita, where there has been a cloud hanging over them for so long, they have lately taken a start forward, and under new and better management we trust they may bring the district out. While out in Patagonia and Tombstone we already have live camps which are growing rapidly and will continue to grow for a long time to come. Globe also is a live camp, and it only requires a little energetic work on the part of our merchants to secure the trade of that district. While all other districts, thirty-three in number, are growing and improving. The trade of all this vast region of country will steadily increase and must necessarily materially add to the prosperity of our growing town.

Our New York Success.

THE CITIZEN has perfected arrangements whereby it will hereafter receive a special dispatch once a week from New York, giving a full report of the mining operations in all parts of the country. These reports are prepared by the New York Mining Associated Press, which has reliable agents in all of the mining States and Territories. THE CITIZEN is the agent for the Association in Arizona, and right here we will say to all mine owners and superintendents of mines who have anything of importance to report which they know to be reliable, and can satisfy us of the truth of their statements, we will forward such information to the New York Mining Associated Press free of charge. These reports we intend shall be reliable as far as Arizona is concerned, and will be sent out from New York in the regular Associated Press reports, and will be read by everyone interested in mines and mining. The importance of the New York Mining Associated Press report to Arizona must prove of incalculable benefit to our mine operators and parties interested in mines, as we shall be enabled to lay before our readers each week important mining news from all parts of the country and at the same time tell the outside world what is being done in the mines of Arizona.

Condensed Telegrams.
At 1:30 yesterday as Jerry Boverce and Nat Prock were running a power drill in the face of the north drift, 2,810-foot level in the Alta mine, the drill struck and exploded a charge of giant powder which was left unnoticed at the preceding blast. Boverce was injured so badly that he lived but two minutes, not long enough to be taken to the surface. Prock was filled with fire-rock, but not much injured. He will recover.

The funeral of the late Superintendent, Fellow, in Oakland yesterday afternoon, was one of the largest ever seen in the city. It was under the auspices of the Masonic fraternity and railroad officials.

The stage from Fort Ross to Duncan's Mills was stopped by three masked men twelve miles from the former place. Six bags of United States mail were taken. Wells, Fargo & Co's box was left undisturbed chained to the box. The passengers were not molested.

The proprietors of Boyd & Peters' circus were arrested at Pittsburgh, Pa., charged with the crime of abducting and outraging Miss Salomons Burkette, 14 years old.

Poor Poland.
A Polish periodical gives interesting statistics connected with the merciless repression of the insurrection of 1863-64, by the Czar's lieutenants. From these data, which appear to have been compiled very carefully and dispassionately, it appears that within the space of two years 33,434 Poles were condemned to perpetual expatriation, and transported to Siberia or other outlying provinces of the Russian empire. Also 11,000 more were confined to effect their escape to foreign countries, but the greater number of these suffered the loss of their entire property, confiscated by the state, and have abandoned all hopes of ever returning to their native land. Three hundred and sixty patriots were hanged in cold blood by their captors. Penitentiary inmates to the amount of 2,000,000 rubles were levied upon the "Vistula province," and 3,200 Catholics were executed, the majority of them being subsequently conferred by the Czar upon Russian noblemen fortunate enough to merit his special favor.

Public libraries were either destroyed by Muscovite's orders, or deprived of the more valuable portions of their contents, which were conveyed out of the country, and distributed among the state libraries in St. Petersburg, Moscow, Kiev and other great Russian cities. The outrages committed upon defenseless women and ecclesiastics are also tabulated in these returns, and constitute one of the most revolting records of modern history.

California Greenbackers.
SAN FRANCISCO, July 22.—The Greenbackers have nominated the following Electors at Large: J. B. Dunn and J. E. Clark, First Congressional District; L. M. Money, Second; J. H. Reardon, Third, and Geo. Elliott, Fourth. A. J. Stoe and T. J. McCready, of the Central Committee, were also elected, after which the Convention adjourned sine die. The platform declares against the Chinese, and favors the Government loaning money on security to whomsoever wants it, at three per cent per year one per cent to go to the county where loaned, also the Government should furnish means to indigent people to settle on public lands.

Democratic Convention in Missouri.
JEFFERSON, July 22.—The Democratic State Convention this morning nominated R. A. Campbell for Lieutenant Governor.

east: Susan Allen, Charles Whitington, Mrs. A. Howe, Mrs. David Miller, J. W. Anderson, L. J. Webster, John Lane.

D. FELIX, the thriving Mesilla street merchant received another carload of barley and potatoes today. The wonder is what becomes of the vast amount of produce received in Tucson, and yet it disappears about as fast as it comes.

DR. MITCHELL will agree to furnish free Remedial for a case of this kind the Vital Restorative (under his special advice and treatment) will not cure or for anything more or less than the cost of the medicine or of the operation found in Dr. Mitchell's book, "The Vital Restorative," published by Dr. Mitchell, 111 N. 1st St., St. Louis, Mo.
